INTRODUCTION

Everything we do at Tubmarine is based around our core values of Style, Quality and Simplicity

We're passionate about creating products that are built to last. We combine the very best materials with quality craftsmanship to ensure every product we make is of the highest standard. Since 2013 we have been perfecting our designs to create the ultimate wood fired hot tub. We're proud to have developed a truly unique product suitable for families, couples and friends to enjoy together.

The Tubmarine wood fired hot tub heats up in under two hours, requires no electricity and is easy to maintain, allowing you more time to relax and unwind. You can find out more details here about the product and our company, or contact us for details of how Tubmarine can help transform your outdoor space with the ultimate wood fired hot tub.

THE DESIGN
JOURNEY
2013 - 2020

ABOUT

Expert Engineering & Craftsmanship

Tubmarine founder Chris Galley embarked on his mission to create the ultimate wood fired hot tub in 2013. Over the past seven years he has worked tirelessly with the best engineers and suppliers throughout the UK and Europe to perfect the product and create a wood fired hot tub which combines expert engineering and craftsmanship, quality eco-friendly parts and materials and stunning design.

Tubmarine wood fired hot tubs are available throughout the country to commercial and domestic clients.

I created my first wood fired hot tub 7 years ago. I wanted to create something for my family to enjoy together, but something stylish and well-engineered that was built to last. I wanted to make a statement piece that stood out from other tubs on the market, so I designed the Tubmarine.

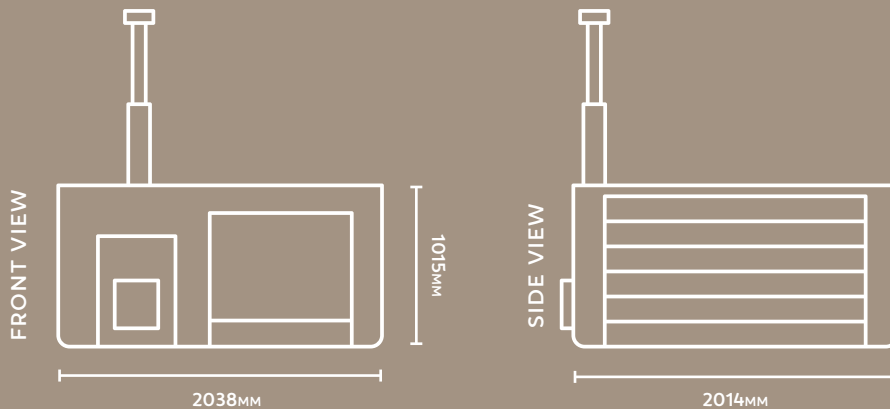

Chris Galley, Founder of Tubmarine

SPECIFICATION

Tubmarine wood fired hot tubs are built using eco-friendly, high specification parts and materials:

TUBMARINE DIMENSIONS:

Overall height
(excluding chimney): 1015mm
Overall width: 2038mm
Overall depth: 2014mm

304 OR 316 STAINLESS STEEL

Corrosion resistant
Made from 80% recycled materials
100% fully recyclable
Hygienic

KEBONY TIMBER

Guaranteed for 30 years
Made from sustainable fast-growing soft woods
No additional wood treatment required

KIRAMI WATER HEATER

Outstanding wood-fired water heaters from Finland
High-quality AlMg3 marine aluminium with excellent thermal conductivity

Our wood fired hot tubs are fabricated here in the UK and all products listed above are fully recyclable.

INSTRUCTIONS

Tubmarine is easy to use and heats up in under 2 hours without the need for electricity. Just follow these simple steps:

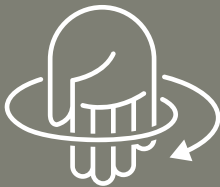

1. Use the tap to fill the tub.
No need for any chemicals.

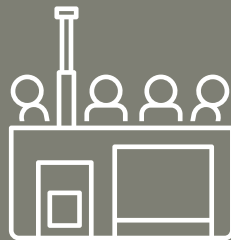

2. Light the wood burner and
keep it topped up with logs.

3. Wait for water to heat up.
This takes just under
2 hours.

4. Stir the tub to mix the hot
water with the cold until the
desired temperature has
been reached.

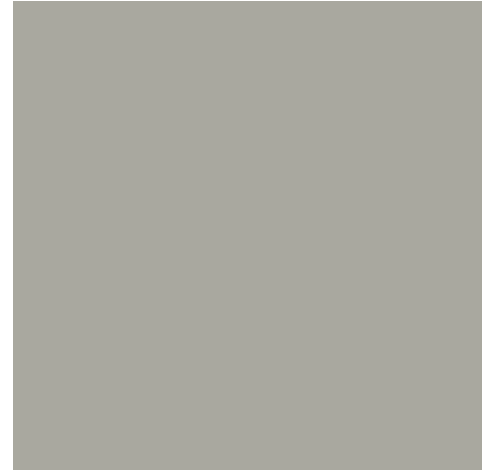

5. Sit back and enjoy! Our tubs
comfortably fit 4 adults.

6. Recycle your greywater by
watering your garden.
